

HLSG 系列湿法混和制粒机

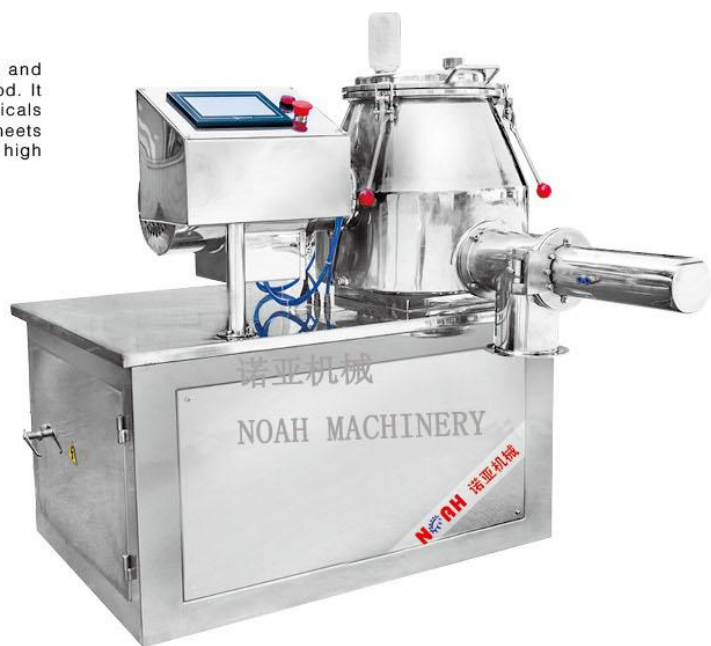

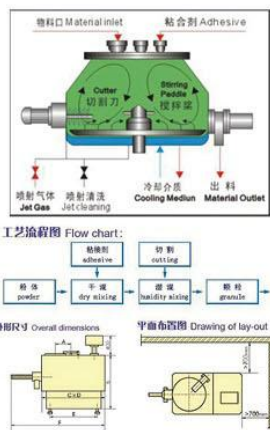

HLSG Series Wet Type Mixing Granulator

性能概述：

湿法混和制粒机能一次完成混合加湿、制粒等工序，适用于制药、食品化工等行业。它是符合药品生产 GMP 要求的先进设备，具有高效、优质、低耗、无污染、安全等特点。

Applications:

Mixing Granulator, the process of Mixing, Wetting and Granulating can be completed in single working period. It is suitable in the line of pharmaceutical, food, chemicals industry. It is one of the advanced facilities which meets the GMP requirement and has the characteristics of high efficiency, best quality, low consumer, none pollution as well as safety, etc.

技术参数 Technical Parameters:

参数 ITEM	型号 TYPE					
	HLSG10	HLSG50	HLSG100	HLSG150	HLSG200	HLSG300
总容积 Bowl Volume Litre	10	50	100	150	200	300
最大投料量 Max Material Charge Amount kg	3	15	40	50	80	100-130
搅拌机功率 Mixing Power kw	0.8	5.5	7.5	6.5	13	22
搅拌浆转速 Mixing Speed r/min	430-600	25-500	25-500	220-330	25-500	10-150
外形尺寸 Dimension mm	980* 420*1250	1600* 650*1300	1700* 680*1300	1850* 830*1340	1950* 920*1450	2200* 1000*1685
重量 Net weight kg	200	300	500	600	850	1200
